DATE MAILED: 10/05/2004

Please find below and/or attached an Office communication concerning this application or proceeding.

Advisory Action	Application No.	Applicant(s)
	09/471,810	BOHN, DAVID D.
	Examiner	Art Unit
	Jean E Lesperance	2674

--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

THE REPLY FILED 28 July 2004 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE. Therefore, further action by the applicant is required to avoid abandonment of this application. A proper reply to a final rejection under 37 CFR 1.113 may only be either: (1) a timely filed amendment which places the application in condition for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued Examination (RCE) in compliance with 37 CFR 1.114.

PERIOD FOR REPLY [check either a) or b)]

- a) The period for reply expires 3 months from the mailing date of the final rejection.
- b) The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.
ONLY CHECK THIS BOX WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. A Notice of Appeal was filed on _____. Appellant's Brief must be filed within the period set forth in 37 CFR 1.192(a), or any extension thereof (37 CFR 1.191(d)), to avoid dismissal of the appeal.
2. The proposed amendment(s) will not be entered because:
 - (a) they raise new issues that would require further consideration and/or search (see NOTE below);
 - (b) they raise the issue of new matter (see Note below);
 - (c) they are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or
 - (d) they present additional claims without canceling a corresponding number of finally rejected claims.

NOTE: _____.

3. Applicant's reply has overcome the following rejection(s): _____.
4. Newly proposed or amended claim(s) _____ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).
5. The a) affidavit, b) exhibit, or c) request for reconsideration has been considered but does NOT place the application in condition for allowance because: See Continuation Sheet.
6. The affidavit or exhibit will NOT be considered because it is not directed SOLELY to issues which were newly raised by the Examiner in the final rejection.
7. For purposes of Appeal, the proposed amendment(s) a) will not be entered or b) will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.

The status of the claim(s) is (or will be) as follows:

Claim(s) allowed: 27-31.

Claim(s) objected to: 6, 7, 13 and 15.

Claim(s) rejected: 1-5, 8-12, 14, 16-26, 32-35 and 43-51.

Claim(s) withdrawn from consideration: _____.

8. The drawing correction filed on _____ is a) approved or b) disapproved by the Examiner.

9. Note the attached Information Disclosure Statement(s) (PTO-1449) Paper No(s). _____.

10. Other: _____.

Henry N. Tran
HENRY N. TRAN
PRIMARY EXAMINER

Continuation of 5. does NOT place the application in condition for allowance because: Applicant's arguments have been fully considered but they are not persuasive.

The applicant argued that the prior art, Berry, does not teach moving a display along with a navigation sensor. Examiner disagrees with the applicant because the last Office Action teaches on Pages 2 and 3 "a mouse Fig. 1 (13) corresponding to a navigation sensor, whereby a movement of said electronic device relative to a surface in close proximity to said navigation sensor is sensed by said navigation sensor and said movement includes moving said display and said movement produces a change in said image that is showing on said display. The movement of the mouse moves the cursor on the display screen 16 where the mouse is in close proximity relative to the surface and the movement also includes moving the display, which produces a change in the display every time the cursor moves to a different location. The prior art does not explicitly teach a navigation sensor ". The same above argument is also applied to claims 8. Regarding claim 17, the same above argument is applied because when the cursor can move the entire display on one side of the display device and left only the cursor on the background. Regarding claim 22, a mouse Fig.1 (13) corresponding to a navigation sensor senses the cursor on the display. Regarding claims 32 and 43, as the cursor Fig. 1 (15) is moving, different sides of the display is showing and a first side can be on the left side of the display and a second side can be on the right side of the display and they are opposite to each other. Therefore, the rejection is maintained.
